

17th Annual bioProcessUK Conference

1 December – 2 December 2020

About the conference

bioProcessUK is the UK's leading bioprocessing networking conference, it is well established and a must-attend event in the bioprocessing/manufacturing arena.

The conference brings together 300+ delegates from all levels of experience and young researchers represent a key segment of the delegates and are an important part of the conference.

bioProcessUK annual bursary poster competition

BIA run a popular bursary competition for the bioProcessUK conference, where approximately 25-30 high calibre postgraduate students and postdoctoral researchers have an opportunity to display a poster showcasing their research in biological medicines and bioprocessing.

The competition offers students a chance to build their network by engaging with industry professionals and provides a fantastic opportunity to raise awareness of their research and gain exposure to leading companies involved in making biological medicines.

A selected number of entries will have the opportunity to orally present a two slide, two-minute poster flash during a dedicated plenary session.

Successful applicants will receive a complimentary conference ticket.

The bioProcessUK audience will vote to determine a winning poster, for which a prize will be awarded. This is likely to be a Currys or Amazon voucher this year.

Eligibility

The poster scheme is targeted at early stage researchers completing their postgraduate studies, engaged in their first postdoctoral position or at Masters level.

Content and design

Posters must display research in the field of biopharmaceuticals and the associated bioprocessing. Students should be aware that the audience is predominantly industrialists.

What you need to do and what must be included

- Include a brief abstract about the research.
- Include the name of the academics involved in the research.
- Reference any associated academic papers.
- Please ensure you poster is 'signed-off' by your supervisor.

To enter a poster into the competition

Simply email an abstract of no more than 200 words to Marzia Sguazzin at msguazzin@bioindustry.org by **Monday 19 October**.

Important: Applicants must ensure that the abstract has been signed off by their supervisor as we cannot be liable for any Intellectual Property implications.

Poster format

The virtual event platform allows you to upload an image 1200 x 675px (16:9ratio), no larger than 1MB or a Youtube or Vimeo video.

You will also be able to upload documents by adding a link to it or by importing a file (pdf, doc, docx, ppt, pptx, png or jpg).
